MAINETTI ITALIA MAINETTI PAPER PACKAGING

GREAT SKILLS UNDER ONE NAME:
A PASSION FOR EXCELLENCE

The integration of Mainetti Treviso and Mainetti Morresi expands the range of opportunities for the production of paper packaging and gift ,delivery, and e-commerce boxes for many sectors.

The Treviso Business Unit is the heart of Mainetti's Paper Packaging production in Italy, a center of excellence that combines industrial capacity, technical know-how, with a focus on sustainability. The plant is able to guarantee high quality standards and large production capacity.

Morresi Mainetti For over 40 years in the heart of the Marche footwear district, is a company that combines craftsmanship, technology and sustainability to create unique packaging solutions.

GRANDI COMPETENZE UNITE IN UN SOLO NOME:
AMORE PER L'ECCELLENZA

L'integrazione di Mainetti Treviso e Mainetti Morresi, amplia la gamma delle opportunità di produzione di packaging in carta e scatole da presentazione, delivery, e-commerce per molteplici settori.

La Business Unit di Treviso rappresenta il cuore della produzione Paper Packaging di Mainetti in Italia, un centro di eccellenza che unisce capacità industriale, know-how tecnico e attenzione alla sostenibilità. Lo stabilimento è in grado di garantire elevati standard qualitativi e un'ampia capacità produttiva.

Morresi Mainetti da oltre 40 anni nel cuore del distretto calzaturiero marchigiano, è un'azienda che unisce artigianalità, tecnologia e sostenibilità per creare soluzioni di packaging uniche.

MAINETTI ITALIA CUSTOMIZATION & OVERPRINTING

CUSTOMIZATION AND OVERPRINTING

Complete customization: each item can be modified according to the customer's preferences.

FLEXOGRAPHIC PRINTING:

Water-based ink printing technology guarantees eco-sustainability and fast drying times, combining respect for the environment with production efficiency

SCREEN PRINTING

This printing technique ensures sharpness and precision of detail, with excellent ink coverage on different substrates. It allows dark logos and text to be reproduced on coloured backgrounds, as well as light colors, such as white, on dark substrates. This process is ideal for reproducing logos with vector paths and for handcrafted products.

DIGITAL PRINTING

There are many advantages to short runs: the speed with which graphic files can be modified, the ease with which complex images, vectors or screens can be created with multicolour printing, covering larger print areas. Excellent results on embossed paper and handmade products.

HOT FOIL PRINTING

Single-color hot stamping allows elegant, visually striking results, thanks in part to the use of metallic and bright Pantone colours. Excellent colour rendering even on coloured or dark paper thanks to the high opacity of the ink. It is possible to print on embossed paper and on handmade products.

PERSONALIZZAZIONE E SOVRASTAMPA

Personalizzazione completa: ogni articolo può essere modificato secondo le preferenze del cliente.

STAMPA FLESSOGRAFICA:

La tecnologia di stampa ad inchiostri a base d'acqua garantisce ecosostenibilità e tempi rapidi di asciugatura, unendo rispetto per l'ambiente ed efficienza produttiva.

STAMPA SERIGRAFICA

Questa tecnica di stampa assicura nitidezza e precisione dei dettagli, con un'eccellente coprenza degli inchiostri sui diversi supporti. Permette di riprodurre loghi e testi scuri su sfondi colorati, ma anche colori chiari, come il bianco, su supporti scuri. È possibile creare suggestivi effetti di profondità e sovrapposizioni di texture. La lavorazione è ideale per la riproduzione di loghi con tracciati vettoriali e per prodotti a costruzione manuale.

STAMPA DIGITALE

Tanti sono i vantaggi per le basse tirature: la rapidità delle modifiche dei file grafici, la facilità di realizzare immagini complesse, vettoriali o retino con stampe multicolore riuscendo a coprire aree di stampa più ampie. Grande resa su carte goffrate e su prodotti realizzati manualmente.

STAMPA A CALDO

La stampa a caldo consente risultati eleganti e di grande impatto visivo, grazie anche all'impiego di Pantoni metallizzati e brillanti. Ottime rese cromatiche anche su carte colorate o scure grazie all'elevata coprenza. È possibile stampare su carte goffrate e su prodotti realizzati manualmente.

MAINETTI ITALIA SUSTAINABILITY

Our focus is not limited to the choice of materials, but to an integrated service for environmental responsibility.

We use **FSC-certified, recycled and recyclable paper** and packaging with **recycled plastic blister packs**, aiming to reduce the environmental impact without compromising on quality and functionality.

CERTIFICATIONS

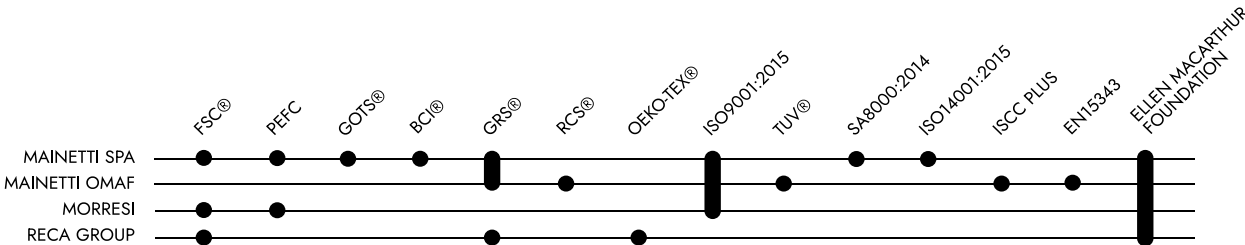

Certifications are a guarantee of quality, reliability and transparency, as well as a concrete commitment to meeting high standards, not only in terms of products and services, but also in terms of internal processes, safety, and sustainability.

La nostra attenzione non si limita alla scelta dei materiali, ma si traduce in un vero e proprio servizio integrato di responsabilità ambientale.

Utilizziamo **carta certificata FSC, riciclata e riciclabile** e **imballaggi con blister in plastica riciclata**, con l'obiettivo di ridurre l'impatto ambientale senza compromettere qualità e funzionalità.

CERTIFICAZIONI

Le certificazioni sono la garanzia di qualità, affidabilità e trasparenza e un impegno concreto nel rispettare standard elevati, non solo in termini di prodotti e servizi, ma anche di processi interni, sicurezza e sostenibilità.

COLLEZIONE ART COLLECTION

Paper packaging is a means of communication, a sensory experience, and a distinctive feature that accompanies every brand in its dialogue with customers in a full process that combines **creativity, innovation, and sustainability**.

Our creative team works to transform values and identity into visual and tactile solutions. Colours, shapes, textures and details are designed for packaging that not only protects the product, but also **enhances it, tells its story, and makes it memorable**.

Il paper packaging è un mezzo di comunicazione, un'esperienza sensoriale e un segno distintivo che accompagna ogni brand nel dialogo con i clienti in un percorso completo che unisce **creatività, innovazione e sostenibilità**.

Il nostro team creativo lavora per trasformare valori e identità in soluzioni visive e tattili. Colori, forme, texture e dettagli vengono studiati per dare vita a un packaging che non solo protegge il prodotto, ma lo esalta, lo racconta e lo rende memorabile.

COLLEZIONE CRYSTAL DROPS

Papers

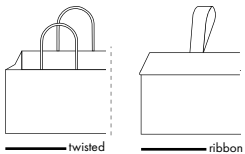

Duplex

Duplex paper is created by coupling two different dough compositions that make it quite interesting under the aesthetic profile: one white and one avana side, not forgetting that also under the structural aspect, it can guarantee a better and stronger support compared to the standards avana paper. FSC® certified

Custom overprinting

Can be over printed with flexo printing, silk printing and hot foil printing.

Carte

Duplex

La carta Duplex nasce dall'accoppiamento di due diverse composizioni di impasto che la rendono interessante sotto il profilo estetico: un lato bianco e un lato avana, ma anche sotto l'aspetto strutturale che garantisce così un supporto maggiormente tenace e resistente della carta standard Kraft. La carta Duplex è 100% riciclata. Certificata FSC®

J FOLD

Papers

Duplex

Duplex paper is created by coupling two different dough compositions that make it quite interesting under the aesthetic profile: one white and one avana side, not forgetting that also under the structural aspect, it can guarantee a better and stronger support compared to the standards avana paper. FSC® certified

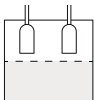

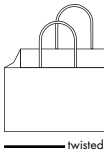

Custom overprinting

Can be over printed with flexo printing, silk printing and hot foil printing.

PAP22

Recyclable in paper | Riciclabile nella carta.

Carte

Duplex

La carta Duplex nasce dall'accoppiamento di due diverse composizioni di impasto che la rendono interessante sotto il profilo estetico: un lato bianco e un lato avana, ma anche sotto l'aspetto strutturale che garantisce così un supporto maggiormente tenace e resistente della carta standard Kraft. La carta Duplex è 100% riciclata. Certificata FSC®

Sovrastampa personalizzata

Personalizzabile con sovrastampa flessografica, serigrafica e stampa a caldo.

Carte

White Kraft

Le shopper in kraft bianco sono prodotte con carta riciclabile. La carta ha un'elevata resistenza ed è un prodotto certificato FSC®.

Avana Biokraft

Le shopper biokraft sono prodotte con una carta 100% riciclata, fabbricata utilizzando maceri selezionati di altissima qualità, idonei a garantire uniformità di superficie e di colorazione. È realizzata con una percentuale di resine naturali che la rende resistente all'umidità.

Avana Kraft

Avana Kraft è una carta riciclabile di alta qualità di pura cellulosa. Certificata FSC®.

Duplex

La carta Duplex nasce dall'accoppiamento di due diverse composizioni di impasto che la rendono interessante sotto il profilo estetico: un lato bianco e un lato avana, ma anche sotto l'aspetto strutturale che garantisce così un supporto maggiormente tenace e resistente della carta standard Kraft. La carta Duplex è 100% riciclata ed è certificata FSC®.

Colori

White Kraft

White Kraft shoppers are produced with recyclable paper. The paper has high strength and is FSC® certified.

Avana Biokraft

Biokraft shoppers are produced with 100% recycled paper, made from top quality selected pulp, which provides a perfectly uniform surface and colour. Brown Biokraft is totally recyclable, FSC® certified, compostable and humidity resistant thanks to a percentage of natural resin in its composition.

Sealing Avana

Sealing Avana is a FSC® certified product, made of pure cellulose paper. The “Ribbed effect” is not due to an embossing operation, but to a finish applied during the paper production process.

Duplex

Duplex paper is created by coupling of two different dough compositions that make it quite interesting under the aesthetic profile: one white and one avana side, not forgetting that also under the structural aspect, it can guarantee a better and stronger support compared to the standards avana paper. FSC® certified.

Dyed Papers: Black

The processing of the dyed paper takes directly in the paper mill. This process enriches the perceived value of the paper and grants a colour uniformity both inside and outside of the bag. It prevents the white corners effect resulting from the wear of vulnerable parts.

Custom overprinting

Can be over printed with silk printing and hot foil printing. Flexo Printing available on BARBERA and EASY BOTTLE BAGS.

Sealing Avana

Il Sealing Avana è una carta di pura cellulosa certificata FSC®. L'effetto “millerighe” non è una goffatura, ma la rifinitura stessa della carta al termine della sua lavorazione.

Duplex

La carta Duplex nasce dall'accoppiamento di due diverse composizioni di impasto che la rendono interessante sotto il profilo estetico: un lato bianco e un lato avana, ma anche sotto l'aspetto strutturale che garantisce così un supporto maggiormente tenace e resistente della carta standard Kraft. Papers

White Kraft

White Kraft shoppers are produced with recyclable paper. The paper has high strength and is FSC® certified.

Avana Biokraft

Biokraft shoppers are produced with 100% recycled paper, made from top quality selected pulp, which provides a perfectly uniform surface and colour. Brown Biokraft is totally recyclable, FSC® certified, compostable and humidity resistant thanks to a percentage of natural resin in its composition.

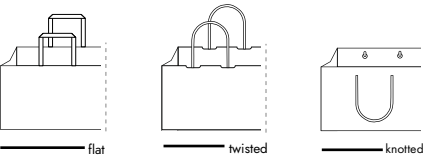

Duplex

Duplex paper is created by coupling of two different dough compositions that make it quite interesting under the aesthetic profile: one white and one avana side, not forgetting that also under the structural aspect, it can guarantee a better and stronger support compared to the standards avana paper. FSC® certified.

Colors

Printed with water inks and protective varnish.

Carte

White Kraft

Le shopper in kraft bianco sono prodotte con carta riciclabile. La carta ha un'elevata resistenza ed è un prodotto certificato FSC®.

Avana Biokraft

Le shopper biokraft sono prodotte con una carta 100% riciclata, fabbricata utilizzando maceri selezionati di altissima qualità, idonei a garantire uniformità di superficie e di colorazione. È realizzata con una percentuale di resine naturali che la rende resistente all'umidità. È un prodotto completamente riciclabile, certificato FSC® e compostabile.

Duplex

La carta Duplex nasce dall'accoppiamento di due diverse composizioni di impasto che la rendono interessante sotto il profilo estetico: un lato bianco e un lato avana, ma anche sotto l'aspetto strutturale che garantisce così un supporto maggiormente tenace e resistente della carta standard Kraft. La carta Duplex è 100% riciclata ed è certificata FSC®.

Colori

Stampate con inchiostri ad acqua e vernice di protezione.
